- **[Fiverr](#)**

Dhaka, Bangladesh

Freelance Web Developer

Mar 2021 - Jan 2024

- Worked with 48+ clients from 17 different countries.
- Built various projects using **React, PHP, WordPress, and MySQL**.
- 5-star rating from every client I have worked with.

PROJECTS

- **[Guideasy User App](#)**: Travel app with features of Visa Booking, Holiday Package, Flight Booking, Tour Guide booking, Hotel Management & Hospital Booking. I am responsible for building the front end of the web app.
- **[Guncha Foundation](#)**: Street Children Donation platform located in Delhi, India. I created the website end-to-end from UI/UX design & frontend to backend.
- **[Guideasy Guide Management](#)**: Guide booking platform where tour guides can register with their information. Multi-step form is implemented for getting different types of data from the user. Supports multiple locales based on the user's geolocation.
